

ZURICH FINANCIAL SERVICES GROUP AND CSC SIGN NEW IT SERVICES CONTRACT IN EUROPE AND NORTH AMERICA

ZURICH, Switzerland, and FALLS CHURCH, Va., Nov. 25 – CSC (NYSE: CSC) announced today that it has signed a ten-and-a-half year master service agreement with Zurich Financial Services Group (Zurich) for data center and information technology (IT) infrastructure managed services. The master service agreement provides the framework for country specific agreements to be subsequently entered into by the local entities of each party. The master service agreement will become effective upon the signing of the first country specific agreement. The contract covers global data center centralization and server virtualization and is designed to transform Zurich's existing data center environment into a fully modernized, flexible and highly virtualized operation.

The potential total contract value is estimated to be up to \$2.9 billion assuming the successful negotiation of all anticipated country specific agreements and the provision of the full scope of services in all the planned countries over the initial ten-and-a-half year term. Services are expected to commence under the master service agreement and one or more country specific agreements in the first half of 2010. All of the agreements are subject to regulatory and other approvals and notifications, including consultation of relevant workers councils.

Under the terms of the agreement, depending on the country specific agreements entered into, up to approximately 1,000 Zurich employees will potentially transition to CSC during the first half of 2010.

The relationship between Zurich and CSC began in July 2004 when the companies signed a seven-year, \$1.3 billion applications outsourcing contract. In 2008, the scope of work expanded to include desktop services in Europe and North America.

All statements in this press release and in all future press releases that do not directly and exclusively relate to historical facts constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements represent the company's intentions, plans, expectations and beliefs, and are subject to risks, uncertainties and other factors, many of which are outside the company's control. These factors could cause actual results to differ materially from such forward-looking statements. For a written description of these factors, see the section titled "Risk Factors" in CSC's Form 10-K for the fiscal year ended April 3, 2009 and any updating information in subsequent SEC filings. The company disclaims any intention or obligation to update these forward-looking statements whether as a result of subsequent event or otherwise, except as required by law.
